

Tahsin Tajwar Tanni

Dhaka, Bangladesh | tahsintanni009@gmail.com | (+880) 1796518460

[Portfolio](#) | [LinkedIn](#) | [Github](#) | [Google Scholar](#)

PERSONAL PROFILE

- Computer Science and Engineering graduate with a completed thesis on pretrained language model security, specialising in defence mechanisms against fine-tuning attacks and model robustness under adversarial conditions.
- Skilled in deep learning experimentation (PyTorch, Hugging Face Transformers), full-stack development (React, Node.js, MongoDB), and reproducible research workflows in Python

EDUCATION

01/2022 – 02/2026	<i>BRAC UNIVERSITY</i> BSc in Computer Science and Engineering	GPA: 3.60 / 4.00
03/2018 – 11/2020	<i>Govt. Haji Muhammad Mohsin College</i> Higher Secondary Certificate (HSC)	GPA: 5.00 / 5.00
01/2004 – 12/2018	<i>Bangladesh Mohila Samity Girls' High School and College</i> Secondary School Certificate (SSC)	GPA: 5.00 / 5.00

PROFESSIONAL EXPERIENCE

05/2025 – Present	<i>AI Automation Trainee</i> <i>180 RE, Toronto, Canada</i> • Built LLM-powered workflows using OpenAI and Anthropic APIs, automating multi-step business processes via n8n and third-party service integrations. • Developed and deployed AI-powered chatbots, integrating them into websites to automate user interactions and supports • Applied prompt engineering techniques to optimise LLM outputs for accuracy and safety across use cases.
02/2023 – 07/2024	<i>Junior Web Developer</i> <i>Weabers, Chattogram, Bangladesh</i> • Developed and maintained responsive web applications using modern frontend technologies. • Implemented reusable UI components, interactive features, and frontend logic aligned with project requirements. • Collaborated with backend developers to integrate APIs and dynamic data into frontend interfaces. • Debugged issues, refactored existing code, and assisted in deploying feature updates

VOLUNTEERING

02/2025 - 07/2025	<i>Python Instructor</i> <i>Zentorra</i> • Taught foundational Python programming concepts to beginner-level learners.
-------------------	---

PUBLICATION

Rohan, A. M., Khan, N., **Tanni, T. T.**, Fardin, F., & Bushra, A. (2026). Anchor-guided repair: A defense mechanism for enhancing stability of compromised pretrained language models against low-precision and weight noise attacks. *Proceedings of Machine Learning Research (PMLR)*, IndabaX Nigeria 2026.

RESEARCH EXPERIENCE

01/2025 – 01/2026 **Undergraduate Researcher**

BRAC University, Department of Computer Science and Engineering

01/2025-01/2026

- Investigated post-deployment vulnerabilities in pretrained language models, focusing on weight noise injection and low-precision quantization attacks that degrade model stability without altering architecture.
- Designed and implemented Anchor-Guided Repair, a fine-tuning defense that jointly optimizes language modeling loss and anchor regularization to constrain parameter drift from a clean task-adapted baseline.
- Evaluated the method across multiple LLM architectures and attack types (Gaussian noise, low-bit quantization), consistently recovering performance close to the clean baseline.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, C

ML & AI: PyTorch, Hugging Face Transformers, scikit-learn, NumPy, pandas

Automation & MLOps: n8n, Docker, Hugging Face Spaces

Web & Databases: React.js, Node.js, Express.js, MongoDB, MySQL, SQLite

Tools: Git, GitHub, LaTeX

LANGUAGE PROFICIENCY

English: Full professional proficiency - Medium of Instruction (MOI) certified, BRAC University, 2026

Bengali: Native

AWARDS & HONORS

Dean's List, *BRAC University, Fall 2024*

Vice Chancellor's List, *BRAC University, Summer 2025*

2nd Runner-up – CSE471 Project Demonstration, *BRAC University, 2025*

Academic Distinction, BSc in Computer Science and Engineering, *BRAC University, 2026*
